

Cirius Group INC.
Results Driven Revenue Cycle Solutions

We will change the way you think about revenue cycle improvement.

Imagine producing world-class revenue cycle and reimbursement results. With our industry leading solutions for high-production, maximum-efficiency revenue cycle and reimbursement software, you will streamline business operations and double staff efficiency. Cirius Group brings you powerful, results-oriented financial software solutions.

It's time to change your standard business practices and improve financial performance.

Choose *Cirius Group* software solutions and join the nation's top hospitals — from M.D. Anderson Cancer Center and Stanford University Medical Center to The Mt. Sinai Medical Center and University of Pittsburgh Medical Center (UPMC). Optimize your revenue cycle for maximum returns, improve performance using fewer resources, and submit cleaner claims at a faster pace than ever imagined.

We live and breathe healthcare. Since 1984, we have provided innovative revenue cycle management solutions to leading hospitals, clinics, and healthcare providers. We are veterans of the healthcare industry, dedicated to improving your financial performance in a demanding, complex provider environment.

We work in partnership with our clients to provide tailored, optimized solutions. You will get performance-driven software for claims processing, reimbursement, remittance management, and denial prevention.

It's the smart way to take charge of your revenue cycle.

Reimbursement Management Software Solutions

Ensure that you have accurate, maximum reimbursement for every claim. *Cirius Group* Reimbursement Management software solutions will monitor Medicare and Managed Care reimbursement so you can audit payment data, support creation of cost reports and financial statements, and write A/R down to net.

Our clients capture millions in unclaimed reimbursement and improve workflow as they fully automate reimbursement calculations and invoicing with our software solutions. Advanced linkage between claims and detailed payment data allows information sharing and integration of charges and payment. A comprehensive report writer includes more than fifty standard reports and a custom report writer.

We know the ins and outs of Medicare and Managed Care reimbursement. We were first to introduce an all-payer reimbursement application (*AccuLog™*) in 1984. The next year we introduced a leading-edge Managed Care software application (*AccuContracts*) that calculates and invoices expected reimbursements. Our pioneering software now identifies variances at the billed line item level for outpatient Medicare reimbursement. We continue to innovate for your success.

You can change your financial outcomes and we can help. It's easy with our fast, accurate reimbursement software solutions.

Reimbursement Software

— ***AccuLog™*** validates Medicare calculations and expected payments

— ***AccuContracts*** calculates expected Managed Care reimbursement

Revenue Cycle Management Software Solutions

Transform your revenue cycle. Achieve the highest clean claim rates, the lowest A/R Days and smallest cost-to-collect ratios with Cirius Group Revenue Cycle software solutions.

We continue to set industry standards for speed, accuracy and revenue cycle efficiency. Our software solutions help clients attain clean claim rates up to 99% and dramatically increase cash flow, with 50% less work. We understand the business challenges you face, and provide the automated solutions and support services you need to meet those challenges.

You are in control with *Cirius Group* solutions. Manage production, optimize reimbursement, accelerate the paid claim cycle, streamline business office processes, and reduce your overhead. See staff productivity double with faster claims processing, denial prevention, and user-defined corrective edits.

We are committed to your financial success. Our suite of advanced software solutions includes *PreBill*™ claims management system that provides error-free submissions and productivity reports; and *AccuStat* claim status information system that allows posting and claim status feedback.

You'll get extraordinary bottom-line results — and the most responsive service and support in the industry.

CIRIUS GROUP DELIVERS

Dramatic Return on Investment

Superior support services

Revenue Cycle Software

— *PreBill*™ claims management and productivity manager

- *AccuABN* advanced beneficiary notification and reporting
- *AccuRemit* electronic remittance advice (ERA)
- *AccuStat* claim status information system
- And more products to choose from

"This system is so effective that close to 50% of the billing staff has been reallocated and production quality has significantly increased. Over 99% of claims are accepted on first submission and denials are less than 2% across all payers. The claims are extremely clean of errors. We collected \$100 million more cash in the first year of operation."

— Karen Campbell, Director, Patient Business Services, University of Pittsburgh Medical Center (UPMC), Pittsburgh, PA
